2.3HR Tight Seat

- Two Year Warranty

- 2.3HR 30LB FOAM CORE
- 3/4OZ LOW MELT FIBER

All cushions are manufactured with multiple layers to protect the center foam core and to extend the life of the entire cushion. These layers give the seat an initial softer "sit" while still providing a dense and resilient core. All padding materials meet UFAC & California Technical Bulletin 117-2013.
